

**RNA/Mobile MedSoft Announces Approval of
E-Prescribing Systems Product Lines**
**Three Mobile Medsoft E-Prescribing Systems product lines have been
approved by the Nevada State Board of Pharmacy**

DALLAS, Texas (PRWEB) August 26, 2015

RNA Holdings, LLC dba Mobile MedSoft announces that the State Board of Pharmacy for Nevada has approved three product lines for E-Prescribing Systems.

The Helix Pharmacy Management System, the iAMOS (Automatic Medication Ordering System) and the MedTablet eMAR and Mobile Point of Care System are all designated as approved E-Prescribing Systems. The approval now enables Pharmacy Service Providers and Long Term Care facilities using the Helix Pharmacy System in conjunction with iAMOS and MedTablet to rapidly deploy complex healthcare technology integrations for any organization throughout the State of Nevada. Pharmacies and health care facilities anticipate resulting operational efficiency, accurate medication administration, enhanced patient care, and improved workflow.

“This latest product approval is another milestone for RNA/Mobile MedSoft,” says Duke Yetter, President and CEO of RNA Holdings, LLC. “We’re pleased that this important product line has now been made available to bring cost-effective, time-efficient improvements to both the user and patient healthcare experience.”

The approval adds to company’s legacy of almost 40 years of developing leading edge healthcare solutions for various healthcare organizations and its demonstrated ongoing commitment to delivering the most comprehensive suite of products both in stand-alone and mobile platforms.
